Meeting Description:

This meeting will provide an overview of a Regional Conservation Investment Strategy (RCIS) that is being developed for the San Pablo Bay (North Bay) Baylands region (**Figure 1**). There will be a brief presentation to introduce the RCIS, followed by an opportunity for public questions and input.

Guided by state legislation (AB 2087), Regional Conservation Investment Strategies are voluntary, science-driven, landscape-scale planning tools to guide conservation investment in a region. The North Bay Baylands RCIS aims to:

1. Identify high-value conservation and habitat enhancement opportunities; and
2. Provide a science-based guide for voluntary conservation and mitigation actions.

For more information on the North Bay Baylands RCIS please visit **www.baylandsrcis.org**.

Public Meeting Requirements:

Pursuant to Fish and Game Code section 1854(c)(3), the Metropolitan Transportation Commission and its partners are sponsoring a public meeting to provide information about the North Bay Baylands RCIS and to give the public an opportunity to comment. Written comments will be considered by the project team in developing the draft North Bay Baylands RCIS that will be submitted to the California Department of Fish and Wildlife for approval. Comments may be provided in the virtual meeting chat, on cards available at the in-person location, or orally during the meeting. All interested parties are invited to attend.
